PHOENIX, Sept. 10.—Prof. R. W. Stone, author of bulletins on Gypsum, is a visitor to Arizona. He has made calls at the Chamber of Commerce and is receiving all data regarding the gypsum deposits in this state.

Gypsum is a growing industry in the United States and should continue to grow for some time. In ten years the production jumped from 1,000,000 tons of crude gypsum in 1903 to more than 2,500,000 in 1913.

Gypsum is produced in eighteen states and Alaska. New York has been the largest producer of gypsum with Iowa second, and Michigan third.

The product finds its chief use in the manufacture of various plasters, such as plaster of Paris, stucco, cement plaster, molding plasters, etc. Refined grades of gypsum are used for dental plasters, molds for pottery, etc.

There are evidences that Arizona contains immense deposits of gypsum which have as yet been untouched.

There are two hundred children in attendance at the public school.

The noisiest thing yet developed in the campaign is the boiler plate cartoon.

This morning Mr. B. Heyman, president of the chamber of commerce returned from the east where he has been spending more than two months. In his visit Mr. Heyman has never lost an opportunity to speak of the grand prospects of the territory, and he says the majority of the people are very much impressed with the country and he thinks the outlook phenomenal in the matter of increased population and amount of money invested.

Canada declares with emphasis that she can live without the United States.

Now that the infant Oklahoma is to receive the benefits of a geological survey, the standing plea of Arizona for a like consideration should be heeded and the request granted. It would be of untold benefit to all the mining camps of the territory, and especially so to Tombstone, providing the several owners would consent to the plotting of their respective developments on one chart.

# HURRIES TO ARIZONA TO CAST HIS VOTE

Hurrying home where he will cast his vote in the primary election today Hon. Carl Hayden, accompanied by Mrs. Hayden, passed through Douglas last night on the Golden State Limited en route to Phoenix.

Mr. Hayden had advised some of his local friends of his coming and he was met at the depot by Postmaster H. C. Hankins, Harry E. Pickett, Geo. H. Kelly, of Douglas, and L. R. Bailey, of Bisbee, who rode back as far as Osborn with Mr. and Mrs. Hayden.

Mr. Hayden was informed that the earlier returns from the election in the state of Maine indicated a republican victory, but when told the indications were that the majority would be less than ten thousand on an average of candidates for governor and congress he said he saw nothing in that to discourage the democrats of the country or the party managers.

"As you know," he said, "during the present generation and the past one Maine never voted for a democratic candidate for president with the exception of Woodrow Wilson 4 years ago when the republican party was split in twain."

MUCH EXCITEMENT IN NOGALES, SONORA

NOGALES, Sept. 12.—About two o'clock this morning the bugles sounded in Nogales, Sonora, sounded the call to arms, and there was rushing of feet to concentrate the soldiers in the plaza. The report was that the Yaquis were about to raid the town.

There was somewhat of a panic until the officers got matters quieted down.

Patrols on this side of the international line claim to have also seen about twenty on the hill southeast of town, making observations down on the town and some say there were several shots fired in that direction.

There being a number of Americans on that side of the line, they were hustled over to Nogales, Arizona in a hurry to get them out of the way. The Mexican troops were kept under arms until morning when scouting parties were sent out.

Just where the Yaquis went or whether they are hiding out in the hills is not known at this time.

ARIZONA REGIMENT GATHERED AT NACO

DOUGLAS, Sept. 13.—The First Arizona Infantry mobilization at Naco has been completed within the last few days, according to official notification. Company M of Morenci, which had been on guard at the Roosevelt dam, and Company I of Flagstaff, which has been at Casa Grande, were the last to arrive in the camp and for the first time in more than two months the entire regiment is assembled in the same camp.

Although no official word has been sent out as to the meaning of the mobilization, it is surmised in well informed quarters that it is for the purpose of giving the men and officers training in regimental tactics.

It is not known when the regiment will be mustered out of federal service, but it is the general opinion in well informed circles that it will be one of the last to leave the national service, although one of the first three to enter it.

The numbers of the Arizona regiment have been sadly depleted during the last week or two. Several hundred men have left the camp after having served out the full term of their enlistment or because they were heads of dependent families. There were also some discharges of college students.

MEXICAN BOY ARRESTED FOR BREAKING INTO CAR

DOUGLAS, Sept. 13.—Manuel Perez, a Mexican youth, aged 19 years, is in jail awaiting preliminary hearing on the charge of burglary, having been apprehended Monday night by a sentry on guard at the El Paso and Southwestern freight depot, and Railroad Officer Patterson, while in the act of breaking into a carload of coffee.

It is alleged that coffee had previously been stolen from the car and Perez was suspected, but there was not sufficient evidence against him to warrant his arrest and conviction. For this reason a particularly sharp watch was maintained over the car.

Perez is alleged to have completed breaking open the seal and to have been entering the car when he was placed under arrest.
